

Ahmad Tamem

Backend Developer

00963934679787 | felosadat@gmail.com | Damascus countryside, Qudsaya suburb

Summary

I am a software engineer and backend developer with over a year of experience in backend development. I possess strong skills in system design and analysis, software development, and teamwork. I have a proven ability to work in software development, having analyzed, designed, and developed several systems within teams. I seek to join your company where I can apply my expertise and contribute to achieving goals.
